

GCSE MARKING SCHEME

AUTUMN 2020

**ENGLISH LITERATURE - COMPONENT 1
C720U10-1**

INTRODUCTION

This marking scheme was used by WJEC for the 2020 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

GCSE ENGLISH LITERATURE COMPONENT 1

AUTUMN 2020 MARK SCHEME

GENERAL INFORMATION

Prior to on-screen marking

The first priority is for you to become thoroughly familiar with the material on which the question paper is based. Examiners are asked to go carefully through the examination paper and mark scheme prior to the actual marking process and to consider all questions on the paper. You are also required to mark about ten of each item in training mode. In this mode, you will be able to practise using the on-screen comment bank. Needless to say, a thorough knowledge of the texts themselves is the prime requirement of examiners.

Further guidance on the training process is issued separately.

Online marking

WJEC will be using a method of marking examination scripts known as e marker® for this paper. Under this system, candidates' scripts are scanned and then transmitted to examiners electronically via the internet. Examiners mark on-screen; marked responses and marks are then submitted electronically.

Whilst the basic principles remain unchanged, this method entails some important changes to the way the system operates when examiners mark on paper:

- Examiners do not mark complete scripts. Instead scripts are divided into segments by question (item), and are transmitted to examiners in this form.
- In terms of technical requirements, examiners participating will need a personal computer running on Windows Vista or Version 7/8/10 and a broadband internet connection. With an Apple Mac a Windows emulator is required.
- For further details, please see the user guide available on e marker® when you log on. Details of how to log on to the system and your username and password have been sent separately.

General Advice to Examiners

1. Familiarise yourself with the questions, and each part of the marking guidelines.
2. Be positive in your approach; look for details to reward in the candidate's response rather than faults to penalise.
3. Ticks, underlinings and comments should show how you have judged the quality of an answer. **All comments must be based on the assessment criteria for the examination and taken from the comment bank. The comment box at the bottom of responses should not be used.** After you have read the candidate's response, drag and drop the relevant comments using the on-screen comment bank. You should include a comment for each Assessment Objective that is assessed. Remember that your mark at the end of the response must tally with the skills which you have identified.
4. Tick points you reward, you are also required to include a summative comment at the end of the response and enter the mark. There must always be a comment at the end of each clip (including the poetry question). This should not simply echo the mark but indicate the salient features of the candidate's performance. These comments will be based on the criteria established by the P.E. for this examination and taken from the comment bank.
5. Underlinings should only be used where SPAG is assessed to show where the candidate has made errors.
6. You must tick at the end of the response to show all of the response has been seen. This often means scrolling to the end of the poetry response.

Marking Problems

7. If for any reason you have particular problems in marking a response (e.g. unlikely interpretation, handwriting) you should follow the instructions for reporting a problem.

Marking positively

8. Please approach the marking of scripts with an **open** mind and mark **positively**. All the questions provide opportunities for candidates to make informed, independent responses, and such opportunities need to be upheld in your marking. You must evaluate what is offered by the candidate, using the criteria, but without looking for what might have been presented or for what you might have written in the candidate's place. Some questions are relatively open, so it is particularly important in such instances that you are receptive to a range of responses.

Marking should be positive, rewarding achievement rather than penalising failure or omissions. The awarding of marks must be directly related to the marking criteria. Examiners should use both the generic assessment grid and the indicative content marking guidance when assessing a candidate's response.

Band Descriptors

When awarding a mark, examiners should select the band that most closely describes the quality of work being marked.

- Where the candidate's work convincingly meets the descriptors, the highest mark should be awarded.
- Where the candidate's work adequately meets the descriptors, the most appropriate mark in the middle range should be awarded.
- Where the candidate's work just meets the descriptors, the lowest mark should be awarded.

Examiners should use the full range of marks available to them and award full marks for work that convincingly meets the descriptors in that band.

Indicative Content

The mark scheme instructs examiners to reward valid alternatives where indicative content is suggested for an answer. Indicative content outlines some areas of the text candidates may explore in their responses. This is not a checklist for expected content or a 'model answer'. Where a candidate provides a response that contains aspects or approaches not included in the indicative content, examiners should use their professional judgement as English literature specialists to determine the validity of the response/interpretation in light of the text and the question asked. All questions provide opportunities for candidates to make informed, independent responses, and such opportunities need to be upheld in the marking. Valid alternatives should be rewarded where deemed appropriate, in line with the skills set out in the banded levels of response in the generic assessment grids.

Balanced Responses

Candidates are expected to produce a balanced response to the poetry comparison (Section B). Where responses are unbalanced, candidates will be self-penalising as they will not be able to access the higher bands of AO1, AO2 and AO3 which require a sustained focus on the task. All examiners will be provided with examples of balanced and unbalanced responses when marking is standardised, exemplifying how judgement is used.
